DEPARTMENT OF ARTIFICIAL INTELLIGENCE & MACHINE LEARNING

AI Immersion Program: Algorithms to Applications

Dr. Vindhya P Malagi
Professor & Head
Department of Artificial Intelligence &
Machine Learning
Dayananda Sagar College of
Engineering

Conducted By Future Codex

1. Objectives of the Activity

- To provide students with exposure to emerging technologies in the field of Artificial Intelligence.
 - To encourage students to explore various AI domains and understand their practical applications.
 - To develop research, creativity, and presentation skills through brochure preparation.
 - To promote collaborative learning and teamwork among students.
 - To help students gain knowledge about real-world AI technologies and their impact across industries.
-

2. Description of the Activity

- The **AI Immersion Program: Algorithms to Applications** was organized by the **CodeZero Club of the Department of Artificial Intelligence and Machine Learning** at Dayananda Sagar College of Engineering. The objective of the program was to provide students with an opportunity to explore different areas of Artificial Intelligence and understand how algorithms are applied in real-world scenarios.
 - As part of the activity, students were divided into groups and each group was assigned a specific AI-related topic. Some of the topics included **Natural Language Processing (NLP)**, **Generative AI**, **Robotic Process Automation (RPA)**, **Augmented Reality/Virtual Reality (AR/VR)**, **Internet of Things (IoT)**, **AI/ML Pipeline**, and **Application Development**.

58 - 1DS24AI403

5. Outcomes of the Activity

After the activity, students were able to:

1. Gain a better understanding of different Artificial Intelligence technologies and their applications.
 2. Develop research and analytical skills by exploring AI-related topics.
 3. Improve creativity through brochure design and visual communication.
 4. Enhance teamwork, collaboration, and presentation skills.
 5. Increase awareness about the practical implementation of AI in various industries.
-

6. Photographs of the Activity

(Insert 2–5 photographs with captions)

7. Feedback and Observations

- Student feedback was positive and interactive.
 - Active participation was observed.
 - The activity helped in improving practical understanding of concepts.
-

8. Conclusion

The club activity was successfully conducted and achieved its objectives. Students actively participated and gained valuable knowledge and skills. Such activities will be continued regularly to enhance student learning and engagement.
